(PRIOR ART)

FIG. 2 is a perspective view of the cable assembly 50 in a bent configuration. The cable assembly 50 includes a first connector 52, a cable 60, a second connector 56, and a plug 58. The first connector 52 is connected to the cable 60 at a first end 62. The second connector 56 is connected to the cable 60 at a second end 64. The plug 58 is connected to the second connector 56. The cable 60 is shown in a bent configuration, with a bend 66 indicated by a dashed line. The cable assembly 50 is shown in a perspective view, with the first end 62 and the second end 64 being the ends of the cable 60.

FIG. 5 is a block diagram of a system 64, including a first device 52, a second device 56, and a third device 58, connected in a series configuration. The first device 52 is connected to a power source 54 via a connection 98. The first device 52 is connected to a second device 56 via a connection 94. The second device 56 is connected to a third device 58 via a connection 100. The third device 58 is connected to a power source 54 via a connection 102. The system 64 is shown in a dashed box.
